

kLine Thermo Lack Spray

protects the exhaust systems from corrosion permanently and reliably.
Temperature resistant up to max. +600°C. Good and safe adhesion to varnish and chrome.

Use

Clean surfaces from grease and dirt. Shake can thoroughly until the metal ball is moving freely. Apply the spray crosswise from a distance of approx. 25-30cm. Repeat application for thicker coats.

Technical Data

Form:	Aerosol
Colour:	Black
Density (20°C):	0,73 g/cm ³
Organic solvents:	85,3 %
VOC (EU):	624,2 g/l
Solubility in water:	None
Ecology:	Water hazard class 2 (self classification)
Arrangement:	400 ml spray can / packaging unit 15 pcs
