

DINITROL 7710

Hand Cleaner

Body Repair

Body Repair

Characteristics:

DINITROL 7710 Hand Cleaner is a paste-like, exfoliating hand cleaner with a wood meal base.

Applications:

DINITROL 7710 Hand Cleaner is suitable for removing normal to medium amounts of dirt. It contains an extremely effective combination of surfactants and a high proportion of moisturising substances for skin-friendly treatment. The high cleaning power of the product is enhanced by biodegradable wood meal-based exfoliating particles. In addition to its good biodegradability, wood meal is characterised by its low specific weight. This helps to prevent siphon blockages. The pH value of the product has been adapted to match the skin's own acid mantle.

Method of Use:

In order to achieve an optimal effect, wet the hands with a little water. Rub hands together to dissolve dirt. Once the dirt has been dislodged, apply more water. Rinse hands to remove dirt and product and carefully dry hands.

In case of product contact with eyes, rinse immediately.

Packaging:

DINITROL 7710 Hand Cleaner is available in 8 kg buckets and 500 ml containers. The product can be stored for at least 30 months (from date of production) in its original packaging at room temperature. The corresponding date of expiry is displayed on the packaging.

Please refer to the packaging label for safety instructions.

Die in diesem Merkblatt gemachten Angaben sind das Ergebnis sorgfältiger Untersuchungen. Soweit sie sich auf die Anwendung beziehen, sind sie als Empfehlung zu betrachten, die dem Erfahrungsstand entsprechen. Wegen der Vielseitigkeit der Anwendungs- und Arbeitsweisen können wir jedoch eine Verbindlichkeit nicht übernehmen. Es wird daher ein vertragliches Rechtsverhältnis nicht begründet, und es entstehen aus eventuellen Kaufverträgen keine Nebenverpflichtungen.
